## Experience

### Remote Vans

#### Industrial Design Co-op

Cincinnati, Ohio

August 2023-December 2023

Collaborated with various departments in order to convert vans into a livable space. Lead projects in order to create the most innovative features while thinking about efficiency. Multitasking and communicating ideas as well as ordering from vendors in order to complete projects on a strict timeline.

### Force-4 A Division of Stress Engineering

#### Industrial Design Co-op

Mason, Ohio

February 2023-May 2023

Collaborated with multiple product categories in cross-functional teams. Sketched and conceptualized new product ideas and innovations with the design team. Research, rapid prototyping, and testing designs in order to give the best work to the clients. Communicating and working efficiently to execute projects on a strict timeline. Provided support to engineering team for presentations as well as 3-D printing.

### S.P.A Inc. A TRG Company

#### Packaging Design Co-op

Milford, Ohio

May 2022-August 2022

September 2021-January 2022

Worked in a small team in order to create display designs. Rapid prototyping in order to test designs. Creating a bill of materials for each completed project as well as graphics for putting together complicated products. Multitasking and communicating ideas to superiors then executing those ideas in a short amount of time.

### Wittrock Woodworking

#### Woodworking Intern

Blue Ash, Ohio

February 2021-May 2021

Collaborated with skilled cabinet makers. Product centered work including sanding, cutting, detailing, building, reading blueprints, and using manufacturing equipment. Primary project was a custom built order that focused on refining grain work.
